

To whom it may concern:

I am writing this letter of recommendation for Caden Thornton. I was Caden's Robotics 1 and Robotics 2 teacher at Los Alamos High School. This is a dual-credit college robotics course. During this time, Caden did excellent robotic design work in my class. This work involves designing mechanical systems, understanding the tele-operating system and completing all wiring of components, and programming smaller robots to accomplish various challenges.

Caden has always exhibited a mature attitude towards his work. He was also a 4 year member of the Los Alamos High football team and Baseball team. Caden is a hard worker as testified by not only his classroom work but his commitment to his sports teams.

It is with the above in mind, that I recommend Caden Thornton to your college or university. Whether on a collegiate sports program or academic program of study....or both, Caden would be a valuable member of your institution's student body.

Respectfully submitted,
Donald Davis

Los Alamos High School
Robotics and Pre-Engineering Program Head

University of New Mexico- Los Alamos
Robotics and Electromechanical Technology Program Chair
