

To whom it may concern,

I'm sure you have a lot of coaches contacting you to point out talented kids in their program; however, I rarely send these letters out. I am writing you in hopes that you will take a serious look at a senior we have coming up, Caden Thornton. He is one of the best athletes I've ever seen in our High school district (I've been at the High school level for 11 years). He is very fast and has great hands. I have seen him make plays that just boggle my mind! He is very coachable and a pleasure to have around the team. He is just a great kid! I hope you take this email seriously and spend some time watching and meeting Caden. I am confident that you would be just as impressed as I am.

Thanks for your time reading this email
