

Testimonial from Ron Hall, Former Head Baseball Coach for Rio Americano High School:

Chase is an extremely talented two way player with athletic ability that is off the charts. He has above average power, plus arm strength, is an average to slightly above average runner, is a plus defender and can **hit**. He is a top of the rotation caliber performer on the mound. A power arm with an average change up and possesses a solid curveball as his out pitch. He' **plays hard** and is the type of player that leaves it all out on the field every game. Chase is a tireless worker and is well aware of the importance of continuing to gain strength and flexibility to compete at the highest levels of the game. Any college or university would be extremely lucky to have this young on your campus representing your baseball program.
