Dear review committee,

It is with great pleasure that I write to you concerning Anthony Llera. I have come to know Anthony and his amazing work ethic during the 2022-2023 school year. From the beginning I noticed a respectful and disciplined young man. During this time, I have also seen the quality and character that Anthony exudes not only to me and other teachers but to his classmates as well.

Anthony is a great example of what you want in a student. He not only puts in the hard work and dedication that it takes to succeed in school, he does it with an outstanding attitude! Anthony is honest, kind, hardworking, and persistent. In class I witnessed firsthand his great work habits, strong work ethic, and his ability to utilize his time wisely. Due to all of these outstanding qualities, Anthony not only earned an “A” in my pre-calculus class, he earned straight “A’s” across the board during his first semester of school. We are now in the second semester of the school year and he shows no sign of breaking that streak. Anthony truly has a passion for being the best that he can be.

It’s not too common that I get the honor of working with such amazing students. He is a student who knows why they show up to school day after day. Anthony has a vision for where he is going. He knows who he wants to be and is aware of the legacy that he wants to leave behind. Anthony is a great student athlete to have and I truly hope you will consider him.

Michael Flores

Pre-Calculus Teacher
