

I have known Gabe Arias for three years as I have had him in Health class and Team Sports (baseball class).

Throughout the time I have known Gabe, he has grown into a solid teammate who has shown important leadership qualities. He is dedicated to making his experience better by consistently working hard at skills presented by the teacher/coach. Because of this, he has become a leader that makes playing on his team a rewarding experience. He shows passion for the activities he is doing while making sure that he treats his teammates with the utmost respect. Gabe's dedication and contributions to class have made the educational experience better for everyone involved.
