

To whom it may concern,

I've worked with Malik Harris aka Bear for the last 4 years. He is very talented young man. He is a 3 sport star in football, Basketball and baseball. Malik is a hard worker and very gifted young man he would be an asset for where ever he goes to college. He could play anywhere in the country in any 4 year program school that wants him. Malik competes to win, plus he is a stand out student. Most important, I believe is a can't miss ceiling high athlete that should not be overlooked.

Malik will only be a sophomore this year and he will continue to get better. He believes in himself and I believe in him. I know he will be working hard to fulfill his dreams of playing baseball at the next level don't miss out on this talented right handed pitcher and he can also swing the bat. Everyone better keep and eye on The Bear. Malik has 3 more years of high school at Juan Diego in Utah see you at the games..

Always my best

Coach Mike MORGAN

25years MLB pitcher
