Payne is a great student athlete. He has a great work ethic and wants to get better everyday that he can. He goes far beyond what is asked of him when it comes to his work ethic and he is always willing to help in duties on and off the field. His character is seen through his willingness to help others when other are in need. He cares for his teammates and the people within his community. He is a leader in the school and I see those same characteristics with being a leader on the field as well. Payne has brought, and will continue to bring, great leadership to his school and his team.
