Re: Recommendation for Mr. Gregory Mattison
From: Bryce Baringer, Science Instructor, Canyon View High School

To Whom It May Concern:

I am pleased to recommend Mr. Gregory Mattison for your consideration. I have known Gregory for two years as a student in my Honors Chemistry and AP Physics 1 classes at CVHS. In all the time I've known Gregory, I have been impressed with his character qualities, work ethic, and great positive attitude. Gregory's peers like and respect him, as do his teachers. Gregory always tries his best on every project he does, is always thorough and complete, and always submits very high quality work. Gregory is a team player and perseveres through even the toughest assignments, which is a rare quality found in only the best students. Gregory shows responsibility in his consistency to get things done in a timely manner, and is very self-motivated and invested in his education.

Gregory is also involved in extra-curricular activities, including being a member of the school's baseball team each year of high school. While doing all this, Gregory has maintained a sparkling academic record, despite taking some of the most difficult classes the school has to offer.

I completely expect that Gregory will take his great work ethic, problem solving skills, positive attitude, and great sense of humor into whatever they choose to undertake. I am certain that these qualities will serve Gregory well in their future science and engineering endeavors. I am happy to give Gregory this recommendation, and confident that he will do great things in the future.

Sincerely,

Bryce Baringer
