

Tyler Jackson 2022 Catcher

Tyler's two best tools are his bat and his arm. He makes consistent contact, uses the whole field, and doesn't strike out much. Also does a good job small ball wise as he is a very solid bunter. Tyler's arm behind the plate is accurate and has some pop. He is consistently a 2.05 – 2.15 from pop to pop in game situations. Tyler is very energetic and enthusiastic behind the plate and in the dugout. He cares about his teammates and wants to win. His ability to channel his energy positively has improved immensely. Tyler will be an asset to whatever collegiate program he moves on to.
