

It is my pleasure to write a recommendation for Mr. Gavin Williams. I have known Gavin for 3 years; first as a student in my freshmen Biology class and currently in my Chemistry class. What impresses me most about Gavin is how well he balances the different aspects of his life; he's fun-loving and well-liked by his peers, he is a dedicated athlete, and he has matured into a responsible student who takes his academics seriously. I have nothing but good things to say about Gavin, and I can't wait to see all that the future holds for him!

Please feel free to contact me with any questions or if you just want to see his video from freshmen biology on why he'd make a great lab partner - it's priceless! 😊

Sincerely,

**Mrs. Kimberly Swoboda | Science Department Chair
