

My name is Brandon Oliver, and I'm Gavin Williams' catching and hitting instructor. I would highly recommend Gavin for your program based on his work ethic and willingness to improve his game. He is an honest and accountable young man that will make the people around him better. He comes from a GREAT family and will represent your program with pride.

He is actively trying to pursue a college baseball opportunity, which I think is within his reach. Hopefully with our combined efforts we can help get him there.

Please let me know if you have any questions or concerns.
