

Coach Steve Guberti, Pitching and Hitting Instructor:

This letter is for any future NCAA Colleges and to whom ever else it concerns. Let me first start off by saying Keegan Choinski is one of the most respectful, down to earth, caring players I have ever had the privilege of coaching. I have been coaching Mr. Choinski for 2 years now. In that time I have seen such growth emotionally, mentally, and physically as well. I have been coaching for 9 years now and in my 9 years of coaching I have never truly seen a player work harder than Keegan day in and day out. Mr. Choinski has been an acclamation as a true leader and captain both on and off the field as well. What separates Mr. Choinski from every other player I've ever coached or seen is he doesn't just show respect and leadership when the cameras are on or when everyone is watching him. He shows leadership and hard work when no one is around, when no one is watching him and just puts in hard work and effort day in and day out. Any college would be lucky to have Keegan at their University or school for both academically and athletically as well. Mr. Choinski is always helping others without even being told to or ever asked. If I had to pick one word to describe Keegan Choinski it would be heart! Mr. Choinski for his age has the biggest heart I've ever seen to his peers, his parents, his family, his competitors and also, myself as well. All in all when you are thinking of signing players to colleges or signing students to colleges or any other establishments or companies look no further than Keegan Choinski. He truly is a first ball of fame in athletics, academics, and in all facets of life. Thank you all for your time.

Sincerely, Coach Steve Guberti
