To Whom It May Concern,

I have had the pleasure of knowing Travis and his family for the past few years. I have been very impressed by the support and positive encouragement that Travis receives. Also, the genuine appreciation his family shows for each other.

This upbringing has been instilled in Travis and exemplified thru his everyday activities. Travis has been involved in Process Driven Baseball & Sports Academy and has displayed many qualities that I admire.

As a teammate I have experienced his dedication, strong work ethic, leadership, and desire for ALL to succeed.

Also, he displays a very strong respect towards Coaches and parents, and this I respect greatly.

I would strongly recommend Travis for any endeavor he is interested in and know Travis will highly increase any Team he may be a part of.
