To whom it may concern,

It is my pleasure to recommend Carlos Barba, whom I currently have in my Honors Pre Calculus/ Trigonometry class. Carlos is a standout student for several reasons. He works very hard for his grade, and I appreciate that he asks questions when he does not understand something. He works very well in groups and loves to help others comprehend the difficult concepts. Carlos is a pleasure to have in class because he knows how to balance his extracurriculars and his academics. I know that he will be a great asset to any team and school.

Thank you for your time. If you have any questions, contact me.
