To Whom It May Concern:

It is my distinct pleasure to introduce and recommend Cole Baren for your consideration.

Academically, Cole is an incredible student. He challenges himself as part of the prestigious Academy of Math, Science and Advanced Technology magnet, specializing in advanced math courses. He is currently enrolled in Advanced Placement classes in preparation for college and aspires to take the Advanced Placement exams in the spring. Cole continues to challenge himself academically in his Junior year by taking even more challenging courses as he continues his Advanced Placement courses in math, science, history, and English.

As a student-athlete in my AP World History class, Cole was one of the hardest working athletes I've had the honor of teaching. He showed dedication and commitment to both his studies and his team by always ensuring he made time for both my class and his baseball requirements. If he was ever stressed, he never showed it, as Cole always showed up for class prepared and with a smile. Cole worked well in all group settings and was a natural leader in class; he was first to volunteer when I needed, and as part of my largest class of over 42 students, Cole stood out among the crowd in the most positive way. He truly was a joy to work with and I cannot wait to see what the future will bring for such a talented, dedicated, intelligent, passionate, creative, student-athlete like Cole.

Please feel free to contact me with any questions or for any additional information. I would be more than happy to discuss Cole's accomplishments.

Sincere Regards,

Dr. Tiffanie Bemoll
