

My name is Jamie Balevic, I'm a strength and hitting specialist at DST-Arizona, as well as a coach for FCA Baseball's 2025 club team. Carter has been training and hitting with me since May 2023, and played club ball for me June and July 2023. He is very involved in the training at the facility, coming into train strength and speed 4-5 days per week, and over the summer was hitting 4 days per week. Due to his consistency with training, he has continued to show growth in size and strength.

On the mound he showed extreme competitiveness against good competition, and learned to dominate against "easier" opponents. Halfway through the summer, Carter met some adversity and got hit around a bit, but adjusted very quickly, changing the focus to getting out of innings in a few pitches as possible, becoming an extremely valuable tool in our rotation for Sunday bracket play.
