CUMULATIVE GRADE AVERAGES AT WICHITA COLLEGIATE SCHOOL

Wichita Collegiate School expresses the official grade average for our students as a percentage. This percentage is the average of a student's percentage of final grades earned in core academic courses only. The cumulative grade average for Jacob Stehley is reported on the first page of the transcript.

WCS believes that reporting our academic grades and averages as percentages serves two important functions. The school believes that a percentage average provides a more subtle and revealing record of a student's academic progress. The school also believes that the use of percentage grades provides increased motivation for students to improve their grades, since any improvement is reflected on the transcript.

WCS reports grades in non-core courses with letter grades. These grades are not a factor in the computation of the official grade average.

WCS recognizes that circumstances sometimes require that a student report a cumulative grade average on a 4.0 scale. To compute this average, WCS converts academic percentage grades to a 4.0 scale using the conversion scale shown on this page. In addition, WCS includes grades in non-core academic courses according to the traditional scale (A=4, B=3, C=2). Grades of E, W, WF, WP and NG are not included.

Conversion Scale

100-90	4.0
89	3.9
88	3.8
87	3.7
86	3.6
85	3.5
