

I am writing this on behalf of Alec Schaeffer. Alec would be a great leadoff hitter, but in my opinion he is your prototypical 2 hole hitter as he is one of the best inside out hitters I've ever coached. His 6.8 speed and ability to anticipate what is going to happen make him a deadly offensive weapon. Defensively, he is every bit as good. He gets great jumps, he runs it down, he understands the angles he has to play, and his arm is above average. My favorite part about Alec is that he is a great teammate. He cares about his brothers and his program...that goes along way.
