

To whom it may concern,

This letter is in reference to Alec Schaeffer. I've had the pleasure of knowing Alec since he was 10 and coached him since he was 13. Alec is one of the hardest working and most coachable players I've come across in recent years. He adapts well and is always challenging himself and those around him to be better. His performance, determination, and outgoing personality would make him a great fit for any program that takes an interest in Alec as he would be an asset to any one of them.

Thank you for your time.
