To whom it may concern:

I am writing to you as an academic reference for Trey Wight. I have known Trey for about a year. I taught Trey in College Statistics last year as a junior at Knoxville High School.

Trey is a very committed student. He doesn't want to just memorize content; he wants to be able to connect the current topic to prior knowledge and see how the current topic relates to real life situations. Trey achieved at a high level in College Statistics. When Trey was going to miss a week of class, he took it upon himself to get all the work and lectures ahead of time so he didn't fall behind. Trey is a very motivated and mature student.

From my perspective, Trey's academic abilities are not in question at all. If you have any questions, feel free to contact me via email at matt.heston@kcsd.k12.ia.us or via phone at 641-842-2173.

Sincerely,

Matt B. Heston

Math Instructor

Knoxville Community School District Adjunct Math Professor Des Moines Area Community College
