

“Landon has shown great strides from last year. His all around dedication to getting better everyday has really blossomed. He has really worked hard in the gym and has gained significant size and strength that has helped with more power at the plate and strong arm from shortstop. Landon’s practice habits really translate to game situations by his game-like mentality everyday. His maturity is the most that has stood out by taking a leadership role and ability to stay calm in pressure situations during games.” -Coach Brian
