To Whom It May Concern:

It has been a pleasure working with Jake Carson as his School Counselor for the last two years. I have witnessed a commendable transformation in his academic journey as a high school student. He diligently sought out more challenging coursework to push himself beyond his comfort zone in preparation for increased rigor at the collegiate level. This commitment to a faster paced curriculum was matched by a consistently positive attitude, a willingness to utilize resources to enhance his learning, and an openness to feedback. I've seen firsthand his efforts to not only master the material but also to learn how to effectively balance his academic responsibilities with extracurricular activities and personal interests. Jake is developing time management skills, and demonstrating a maturity and resilience that will make him an excellent candidate for your program. I am confident he will thrive in a mentorship environment and continue to contribute positively in future endeavors.
