

To all Coaches regarding Kaden Edgington

I have been asked to write a few sentences about Kaden Edgington a Jr student athlete at Blue Ridge High School in Lakeside, Arizona, but he deserves much more than that. This will be my 3rd year as a Volunteer Coach on the Blue Ridge Staff, so I have been here to observe the development of Kaden since his Freshman year which has been outstanding. His parents have done a very good job of raising their son that just happens to be a good high school baseball player.

Kaden's dad, also a baseball coach, has 2 more years to help prepare him for the challenges of school and playing baseball physically and mentally at the next level. He has done an amazing job with Kaden.

Finding baseball talent for the college level is not hard to find if that is all you are looking for. What is very hard to find is a high character, high GPA, leader on and off the field, great teammate, very coachable, competitive, positive and mentally strong player that would be a good fit for your program. That would be Kaden Edgington. I know that there is a college program out there waiting for a Student Athlete like Kaden. This is my 54th year in Baseball Coaching & Evaluating players, and 42 years as a Head Baseball Coach at the 5A and 6A level in Arizona. That means you must have good players, coaches, administration, and parental support to be successful. Believe me Kaden Edgington would have been a great fit for my teams which would have made us even better.
