To Whom It May Concern:

I am honored to recommend Cody Campbell for admission into higher education. I have known Cody for almost three years now. He is enrolled in my Forensic Science course this school year. The Forensic Science course gives an in depth look into laboratory work, group and team work, outside projects, and a wide range of forensic science applications. Cody's academic strengths are many. He is focused, organized, and interested in investigations and science. He is always well prepared for the class and eager to learn. He demonstrates determination, leadership, and dedication in each of these areas.

Cody is a positive representation of what our youth can bestow upon the future. He has been a valued team member both inside and outside of the classroom. In group activities, he helped the group stay focused and on task by being the leader. He demonstrates character by being honest, true, and caring. He was a critical part of the school by being a part of Yearbook, and the baseball team. Being part of these teams, he has to cooperate with others, be dependable, and have a high work ethic.

His positive and cheerful attitude and his loyalty to his friends and school emphasize Cody's well-rounded personality. His biggest talent is having the motivation and energy to learn. I am extremely impressed with his dedication to school, with all of the extracurricular activities, he is able to maintain his GPA of 3.38. This is quite an accomplishment! I believe that admission into higher education would allow him to reach his greatest potential as a person. He will be a great asset to your school. It is with great pride that I recommend Cody for admission into higher education. I think he will become a fantastic addition to our community. Please feel free to contact me if you have any further questions.

Sincerely,

Jessica Rushforth ATC, LAT
