University Recruiters,

I am writing to you on behalf of GB Oliver. GB is a current player of mine for our travel baseball program called Ignite Baseball in Santa Fe NM. I am also the head baseball coach at Santa Fe High School.

I've had the privilege of coaching GB since 2018. He is by far one of the most impressive people I have ever coached. An incredibly talented ball player that can do just about anything you could ask on a baseball field. He is a solid defender at any position and an extremely strong hitter.

The most impressive traits that GB possesses are off the field. I have yet to meet a player as dedicated as he is. He has spent his whole life on a ranch in northern NM that his family owns. Through this time he has developed a ton of useful skills as well as a great work ethic. He is so dedicated to self improvement that he built his own batting cage and training area outside his home. The nearest teammates and training facilities are far away from where he lives so building his own batting cage has allowed him to continue working on his game as much as he can. He also drives multiple hours to attend every game, practice, or team event. I have never met a high school kid that was so willing to take his development into his own hands. The maturity he shows combined with his work ethic will allow him to be successful at anything he chooses to do in life.

GB is an incredibly talented athlete, tough, and hardworking. He is a good student and knows what it takes to be successful. Please consider GB for your institution as he would be a wonderful addition. Thank you for your time and consideration.

*Jan Farris*
